

# Grade 3

## National Reading Vocabulary

Presented by ReadingKey.com

The 1000+ words in this 3rd Grade Reading Vocabulary List have been carefully selected as words which students need to master by the end of Grade 3. Students who achieve this goal will be reading slightly above grade level and will typically score in the top 25% on Grade 3 national reading tests (such as the CTBS and SAT).

A total of 1008 words are used in the 3rd Grade Reading List  
and arranged as follows:

1st nine weeks - 252 words  
2nd nine weeks - 252 words  
3rd nine weeks - 252 words  
4th nine weeks - 252 words  
TOTAL = 1008 words

Words are introduced at a steady rate of 7 words per day - 28 words per week with Friday being used as a review day. The 7 daily words include 6 which follow a specific phonics sound or reading rule while the last word is a non-phonics (more difficult to learn) word which we call - "The Word of the Day." You'll find that teaching vocabulary words together which share the same vowel sound (and in small groups such as this) enables a student to memorize new reading words at a rate that is far above what is normally achieved using conventional methods alone.

Another special feature incorporated into this list is the effective use of review words. As we've stated in our earlier vocabulary lists - Not all reading words are created equal. Some words literally require 5-10 times more practice to commit to memory than other words. Because of this reality, we've intentionally repeated certain words several times throughout the 36 week list. Therefore, of the 1008 words listed in the Grade 3 list, approximately 800 are new words and 200 are review words selected from the most difficult 2nd Grade words or difficult words repeated from the 3rd Grade list.

During the first 9 weeks of this 3rd Grade program we provide a concentrated review of the most difficult 2nd grade words. This is important since much of

the vocabulary introduced during the final 9 weeks of 2nd grade is considerably more difficult than the earlier 2nd grade words, and therefore, requires additional practice to commit to memorization. Of the 7 words introduced daily during the first nine weeks of the 3rd Grade program - 5 words are review words and 2 words are uniquely new 3rd grade words. Therefore, during the 1st nine weeks only - 180 of the most difficult 2nd grade words are reviewed and 72 new 3rd grade words are introduced. For every other nine week period, approximately 250 new 3rd grade words are introduced.

Words are also arranged from the "most common" words in the beginning weeks to the "lesser common" words toward the end of the year. This provides you the most logical and efficient order for instruction.

Students advancing at the scheduled pace of 28 words per week will typically score in the top 25% on 3rd grade standardized reading tests such as the CTB-Terinova or SAT. Students who have mastered all of the words in this list (along with all words in our previous lists) will be reading at approximately a 4.0 Grade Level !

## Special Emphasis on the “Word of the Day”

The last word in each daily list is what we call our “Word of the Day.” It is separated from the main phonics words and located next to the “Word of the Day” graphic as seen above. The Word of the Day is placed here because it is far more difficult to learn than the other phonics based words. This difficulty occurs because it is either visually similar to other words (i.e. went – want) or its letters are not consistent with typical phonics rules (i.e. does – what). The Word of the Day must be given significantly more practice to insure its complete memorization.

Thank you and Happy Reading
